## ART FROM HOLLAND

A fresh line of Calla varieties from  
the bulb capital of the world

Dutch artists are well known around the world. Names as Van Gogh and Rembrandt resemble their own unique style and atmosphere. At Künst we apply our knowledge and attitude from our history with Alstroemeria, to the global market of Zantedeschia.

With a breeding program of more than 10 years in both Cut and Pot Calla varieties we can offer a complete assortment suited for every professional grower. This is our own selection of varieties which guarantee the highest quality and production of flowers.

# KÖNST CALLA

At Könst we breed our own varieties of Calla. We have adapted our 50 years experience in the breeding of Alstroemeria to the Pot and Cut varieties of Calla. This 10 year effort has resulted in the varieties you find in this catalog.
